5. Buy-in and Continuation Features

Description:

The players are on a quest to find and destroy the leader of the evil Demon empire. Labryna attacks the enemies with a sword, Condor uses a whip, and Zoriock carries a spear. The adventurous trio moves through many fantastic worlds, facing diverse challenges to reach their objective. Battling such enemies as rats, giant spiders, skeletons, and other monsters, they search for keys to unlock exits and enter new worlds. In the course of their journey, players may pick up special powers:

- Magic Power — Makes player's weapon more powerful.
- Laser — Player uses a laser gun instead of his regular weapon.
- Flamethrower — Player's weapon is replaced by a flamethrower.
- Shield — Protects the player from enemy attack.
- Dynamite — Player can throw sticks of dynamite to blow up the enemies by pressing the Dynamite button.
- Speed-Up — Player's speed increases.
- Food — Replenishes player's energy level.

The Map button provides clues to the location of keys and exits, but it can only be used in certain worlds. In their journey to find the Demon leader, players can explore up to 40 different worlds.
